Moderator

Ashley Norval

*Knowledge Transfer Manager,
DanBred*

As a knowledge transfer manager with an extensive technical background, Ashley's main focus is to translate scientific evidence-based expert knowledge into productive hands-on management guidance to ensure pig producers can reach their full potential on-farm. Ashley will be acting as the moderator for this collaborative broadcast.

Expert

Jens Bols Hansen

*Swine Nutrition Specialist,
Vilomix*

Nutritionist Jens Bols Hansen has more than 10 years' of experience with feeding and managing high productive gilts and sows under different production conditions. Highly productive sows start with the right feed composition and correct feeding strategy of the gilts. During this webinar, Jens will present the latest research and recommendations about the management of gilts - all based on knowledge from SEGES and practical experiences from Vilomix.

Expert

Gilles Langeoire

*Swine Nutrition Specialist,
Agromed*

Disposes of a great reputation in the field of swine nutrition, built through his 45 years of career dedicated to the industry. Mr Langeoire has become a reference - not only in France - but on an international level. During a long career at Provi-mi where he managed the Swine Department, Mr Langeoire developed a practical expertise combined with deep physiological understanding of growth and body development. Today, Mr. Langeoire dedicates himself to a consulting activity in which he successfully supports his clients with consistent nutritional strategies.

Dr. Christian Lückstädt

*Technical Director,
Addcon*

Dr. Lückstädt received his Masters degree in animal science from the Humboldt University in Berlin in 1996. In 2004 he obtained his Ph.D. in animal nutrition from Hohenheim University, Stuttgart, Germany. He subsequently worked as a product manager for an Austrian company between 2003 and 2007. During that period he was often stationed in Asia and America - giving technical support on the use of acidifiers in animal nutrition. From 2007 onwards till 2014 he was a R&D Manager at ADDCON's headquarter in Germany, responsible, next to others, for product development on dietary acidifiers in monogastric animals, including swine. Since 2015 he is ADDCON's global Technical Director for the business unit "Feed". Dr. Lückstädt is the sole editor of the books "Acidifiers in Animal Nutrition" and "Standards for Acidifiers" and has published numerous refereed and non-refereed publications.
